

Setting up R and Rstudio

Spencer Hills

December 2021

Here is a general installation guide that I made for R and R studio:

1 Download and Install R

On a Mac:

Go to: <https://cran.r-project.org/bin/macosx/>

Click the link for R-4.1.2.pkg. Double Click on R-4.1.2.pkg once its downloaded.

Follow installation wizard (mostly just click on the next button).

On a PC:

Go to: <https://cran.r-project.org/bin/windows/base/>

Click the link for R-4.1.2.pkg. Double Click on R-4.1.2.pkg once its downloaded.

Follow installation wizard (mostly just click on the next button).

2 Download and Install RStudio

To install R studio: Go to: <https://www.rstudio.com/products/rstudio/download/#download>

For PC: Click on RStudio-2021.09.1-372.exe

For Mac: Click on RStudio-2021.09.1-372.dmg

Double Click on downloaded file and follow installation wizard (mostly just click on the next button, may prompt you to drag the icon to the applications folder).
